

FREESTYLE SKI TEAM, MARMOT BASIN, ALBERTA

Family Volunteer Requirements, 2023-2024

Jasper Freeride operates as a not-for-profit Ski and Snowboard team and relies heavily on parent and family volunteers to assist in the club's operations. Many hands make light work and we encourage everyone to get involved and help out with our on-hill and off-hill projects. The more work we can complete as volunteers, the better the training venues are for our athletes!

Early season:

Mogul course and Airbag construction and fencing. This usually occurs in late December and requires many volunteers to assist with loading supplies, setting up fences, building jumps, layout and construct moguls, chopping jump landings, etc.

Winter Regular Tasks:

- Saturdays & Sundays – Airbag - Shovel off snow and setup - 9am
- Sundays – Airbag Roll up – This is usually done at 3pm
- Saturdays & Sunday – Chop mogul jump landings 9am & 3pm
- Saturdays & Sunday – Course fence maintenance – sideslip snow, standup fences, etc
- Photography – If you are good with a camera we need high quality images for marketing

Additional Tasks:

- Board of directors – help with operation and strategic planning for our club.
- Fundraising – 50/50s, silent auctions, corporate sponsorships and donations
- Competitions / Banquets – on-snow and off-snow positional available

Watch for email updates and calls for volunteers on social media and TeamSnap app.

VOLUNTEER FEE

A \$250 volunteer levy for the Winter 23/24 season will be applied to your registration fee for all families. Everyone will have the ability to earn it back through volunteering for 5 hours this season. More details as well as sign-up links will be coming on volunteer opportunities throughout the season. They will include mogul course construction, jump landing chopping, and airbag setup. Fundraising and helping out with competitions and banquets will also earn you hours.

I have read and understand the requirements for volunteers.
